PROJECTS

🔗 **Portfolio** :Developed a responsive portfolio website using HTML, CSS, JavaScript, Bootstrap, and Tailwind. It showcases my skills, projects, and contact information with a modern, clean design. The site ensures smooth navigation and is optimized for all devices.Followed best practices in responsive design to ensure an optimal user experience on mobile, tablet, and desktop devices.

🔗 **Food Order Management System** : Used Spring Boot, MySQL, JWT Authentication, Angular, and Bootstrap. The application is designed for a single restaurant to handle online food orders efficiently. Throughout the project, I gained valuable experience integrating Angular with Spring Boot, MySQL, and various APIs. Additionally, I implemented Stripe for seamless payment processing, enhancing the functionality of the system.

🔗 **E-commerce** : I developed a responsive eCommerce website using HTML, CSS, JavaScript, React, and Bootstrap. The site provides dynamic product listings, a shopping cart, and a smooth user interface, optimized for performance and mobile compatibility. React's component-based architecture ensures efficient, scalable code for a seamless shopping experience.
